Our signature facial includes a professional exfoliation for the ultimate skin renewal.

Specialized Facial Treatments

Age Smart Facial \$145

This is a new approach to anti-aging facials. This facial helps to treat aging skin at the source by addressing the biochemical reactions that trigger visible signs of aging before they start. For existing signs of aging, this facial will help smooth, retexturize, hydrate, increase elasticity, and stimulate collagen formation.

Vitamin C Facial \$145

This facial is wonderful for all skin types. Vitamin C isn't just for signs of skin damage; it can also help prevent free radical damage in the first place. This facial will brighten, firm and help reduce the appearance of fine lines and wrinkles. The professional serum used in this facial delivers 3x more Vitamin C in the treatment room.

Hyaluronic Hydro Jelly Facial \$145

Jelly masks aren't your typical skincare product! A jelly face mask produces a soft, vacuum-like seal over the face that deeply hydrates and pushes nourishing ingredients into the skin within making it the ideal tool for self-care and skincare. This mask promotes superior moisture retention, while plumping and reducing the appearance of fine lines.

Back Facial + Extraction Treatment \$145

Back facials can be beneficial in cleansing those tough-to-reach spots, targeting a variety of skincare needs such as clogged pores, back acne, and dehydrated skin.

Young Adult Facial \$85 (ages 14 & under)

Educating young adults on proper skin care will greatly benefit their health in the future. This facial combines consultation with a relaxing treatment, based on the needs of this young skin type.

Advanced Skin Therapies

Dermalogica Pro Power Peel \$165

A peel formulated by Dermalogica. The full suite of peel products include AHAs, BHAs & TCA. It safely removes a dull outer layer of the skin and helps the skin underneath for a smooth and radiant complexion. It helps to address skin roughness, fine line and wrinkles, signs of photodamage, acne breakouts, some forms of hyperpigmentation and unbalanced skin tone. This services include a take home skin care kit.

The Dermalogica Luminfusion \$235

This advanced skin treatment that combines a targeted retinol peel with nanoinfusion technology and LED red light therapy to visibly restore skin luminosity and reduce signs of aging, all without downtime. This treatment will leave the skin smoother, brighter and more radiant. It helps the appearance of fine lines and wrinkles, while improving the skin's texture and tone.

PCA Oxygenation Facial \$175

Oxygenating-trio from PCA SKIN is an advanced three-step formulation that contains potent antioxidants and enzymes that leave the skin smooth, purified, and glowing. This antioxidant therapy corrects and prevents free radical damage, as environmental and oxidative stress on the skin is a significant contributor to aging. Combined with gentle AHAs and BHA, this enhanced reformulated treatment reduces inflammation, increases exfoliation and hydration, making it ideal for acne-prone skin, smoker's skin, or simply to reveal the radiant, healthy skin beneath the surface.

Microneedling \$205

Your esthetician uses thin needles to make tiny holes in the top layer of your skin. The damage helps stimulate your skin's healing process, so it produces more collagen and elastin. These proteins keep your skin firm and smooth. This helps to minimize pore size, improve fine lines and wrinkles and reduce acne scars.

Nano-infusion \$195

Nano-infusion is a non-invasive transdermal serum delivery system. It helps to address similar skin concerns as microneedling, however there is little to no downtime and can be used around sensitive areas such the eyes and lips. Nano-infusion is less deep than microneedling and only penetrates the first layer of the skin, whereas microneedling will address deeper concerns.
